

Capability Statement

Company:

Arctech Fabricating, Inc. is a privately held, company, founded in 1992 and incorporated in 1995. Our corporate leadership has an extensive history in aerospace industry management. From 1992 to today, our company focus has been to provide sheet metal parts, fabrications, and welding services to such industries as transportation, defense, food service, and energy.

Arctech employs a staff trained in engineering, welding, weld inspection, tooling, production control, material handling, and general labor. The Arctech work force is geared toward meeting the specialized welding and fabricating needs of today's fast-paced industry. We offer high quality certified welding of stainless steel, aluminum, and tool steels, as well as precise fabrication of weldments and sheet metal products, and are equipped to handle fast turnaround prototypes as well as high and low quantity production.

Company Owners/Principals:

Len McConnaughey / CEO – owner - with 32 years manufacturing experience including 6 years defense contractor management. Business responsibilities include plant production, facility management , and is a certified weld inspector.

Jim Roberts / President – owner - 30 years manufacturing experience including 10 years defense contractor management. Business responsibilities include information technology , finance, human resources, and general company management.

Tina Roberts / Corp. Board Secretary - 15 years manufacturing experience. Business responsibilities include corporate strategic planning and logistics.

Past Project Involvement:

- 50 Caliber Machine Gun Turret Drive Rings – AM General and BAE sub tier
- Humvee Armor Plating – BAE sub tier
- Humvee Door Latches - BAE sub tier
- Mortar Racks – DOD sub tier
- Nuclear Waste Pump Fabrication – DOE sub tier
- Hydro Turbine Fabrications for Power Generating
- Wind Tunnel Manufactured for Testing
- Guinness World Record Pumpkin Pie Pan

Company Designations

CAGE Code: **4BWX1**
DUNS Number: **868800590**
EIN: **31-1440241**

Corporate Structure: **Small Business**

CCR Registration: **Complete**

ORCA Registration: **Complete**

NAICS Codes

332313-Plate Work Manufacturing

332439-Other Metal Container Manufacturing

332999-All Other Miscellaneous Fabricated

Metal Product Manufacturing

SIC Codes

3443-Fabricated Plate Worker

3444-Sheet Metal Worker

3499-Fabricated Metal Products

Services and Capabilities:

- Robotic production welding
- CNC plasma cutting
- CNC forming
- Sheet metal roll forming
- Sheet metal fabrication
- Structural metal fabrication
- Light machining
- Certified weld process including GMAW (MIG), GTAW (TIG), SMAW, (Stick), Silver Solder
- Certified weld inspector
- Electronic drawing transfer
- Inspection methods including SPC
- Good working knowledge of various MIL specs
- Experience in all metals including aerospace alloys
- Laser processing, CNC machining, special coatings and other processes offered through extensive vendor base
- Quick response, high and low quantity production, and prototype fabrications for commercial and military industry
- Specific equipment listing available upon request
